SOFT SKILLS

- Continuous Learning & Curiosity
- Time Management
- Teamwork & Collaboration
- Consistency and self-discipline

TECH SKILLS

- Java(Intermediate)
- C#(Basic)
- Python(Intermediate)
- SQL(MySQL),MongoDB(Basic),ORM(Hibernate)
- Spring Framework & Spring Boot
- Automation Testing Tools(Basic)
- Strong knowledge about Networking , Software Engineering,Image Processing
- RPG (Basic) Cobol(Basic)

LANGUAGES

- English (Intermediate)

PROFILE

A passionate and curious Information Science student with a strong growth mindset. Driven by problem-solving, ethical computing, and continuous learning, I aim to build innovative tech solutions while contributing to the tech community.

EDUCATION & EXPERIENCE

B.E. Information Science and Technology 2019 - 2026
University of Technology(Yadanarpon Cyber City)
GPA: 5.0 / 5.0

QA Intern Oct 2025 to Dec 2025
Company: Galaxy Software Co.Ltd

Developer Intern May 2026 - July 2026
Company: GIC Myanmar Co.Ltd

PROJECTS

Libray Management System Web Project

CRUD Web application that users can rent and buy books,check availability and also view their records, and admin can manage books

Technologies Used: *Html,Css,Javascript,Bootstrap,Java Servlet & Jsp,Tomcat Web Server*

Inventory Management System Web Application

efficiently tracks and manages inventory by automating stock records, monitoring stock levels for timely reordering, and generating reports for sales and inventory analysis.

Technologies Used: *Angular, MySQL, Spring Boot*

Vision-based Students' Engagement Assessment through their Behaviors in Classroom

detects fine-grained behaviors such as hand-raising ,reading, writing,etc .From these behaviors, students are assessed into four engagement categories: Active, Focused, Collaborative, and Disengaged.

Technologies Used: *SCB Dataset , YOLOv11 Model*

VLab AR :A Modular Augmented Reality Framework for Multi-disciplinary Science Education

Mobile Augmented Reality application that can simulate experiments like flame test , titration ,ohm's law etc and can explore virtual 360 degree view of periodic table , solar system and molecular structure of 27 chemicals.

Technologies Used: *Unity Engine(AR foundation) , C#, Google ARcore*
